Profile Information[1]

Date of Birth:	23th November, 1993
Gender:	Male
Nationality:	Kenyan
Religion:	Christian

Summary and Career Objective

I have cumulative 4+ years' experience in Software Engineering, covering Web based systems and mobile app development. My strength is in being able to learn new skills quickly and ability to adapt to varying environments. I seek to collaborate with professionals from various fields and use technology to make society a better place, as I also build my career as a software engineer.

Skills

Soft Skills: adaptive,collaborative,fast learner, dependable.

Technical: Systems Engineering, Databases and Programming (Java, PHP, Python, Javascript, NodeJs HTML, CSS MySQL, MongoDB, REST APIs and Software Development Frameworks - Django, Laravel, VueJs), Computer hardware diagnosis and repairs, Technical support...
